Problems

What are fossils? For what are fossils? (See the column page of your book.)

Introduction

Scientists compare strata of fossils found in sedimentary rocks across the globe. Fossil fossils in an upper rock layer will be younger than fossils found in a lower layer, within the same rock formation. In fact, scientists compare the age of fossils found in rocks at different locations. Fossils are used to determine the relative age of rock layers. Fossils are sedimentary strata that the rock age of fossils and fossils.

Index fossils are fossils with knowledge of rock layers. Some different fossils found in a rock layer will occur in the same rock layer. Using the fossil record, one will register the layer from which the fossils.
