Citizen Protectors The Everyday Politics Of Guns In An Age Of Decline:

Citizen-protectors Jennifer Carlson, 2015 For the past several decades the United States has witnessed a profound transformation in what Americans do with the guns they own While hunting used to dominate American gun culture now the top reason for owning a gun is protection and today there are over eleven million concealed carry licensees Why are millions of Americans disproportionately American men choosing to carry guns as part of their everyday lives And what are the effects of gun carry on contemporary notions of citizenship governance and crime This volume examines these questions

Cramer, 2019 This book focuses on how the principles and empirical knowledge within behavioral science can inform and improve firearm related policy practice and research It features a formal framework for the assessment of civilians seeking firearms permits reinstatement of their firearms subsequent to revocation and considerations for relevant others

Gun Studies Jennifer Carlson, Kristin Goss, Harel Shapira, 2018-12-07 As cultural social political and historical objects guns are rich with complex and contested significance What guns mean why they matter and what policies should be undertaken to regulate guns remain issues of vigorous scholarly and public debate Gun Studies offers fresh research and original perspectives on the contentious issue of firearms in public life Comprising global interdisciplinary contributions this insightful volume examines difficult and timely questions through the lens of Social practice Marketing and commerce Critical theory Political conflict Public policy Criminology Questions explored include the evolution of American gun culture from recreation to self protection the changing dynamics of the pro gun and pro regulation movements the deeply personal role of guns as sources of both injury and security and the relationship between gun wielding individuals the state and social order in the United States and abroad In addition to introducing new research Gun Studies presents reflections by senior scholars on what has been learned over the decades and how gun related research has influenced public policy and everyday conversations Offering provocative and often intimate perspectives on how guns influence individuals social structures and the state in both dramatic and nuanced ways Gun Studies will appeal to students and researchers interested in fields such as sociology political science legal history criminology criminal justice social policy armaments industries and violent crime It will also appeal to policy makers and all others interested in and concerned about the use of guns

The Violence Inside Us Chris Murphy, 2021-05-18 An engrossing moving and utterly motivating account of the human stakes of gun violence in America Samantha Power Pulitzer Prize winning author of *The Education of an Idealist* Is America destined to always be a violent nation This sweeping history by U S senator Chris Murphy explores the origins of our violent impulses the roots of our obsession with firearms and the mythologies that prevent us from confronting our national crisis In many ways the United States sets the pace for other nations to follow Yet on the most important human concern the need to keep ourselves and our loved ones safe from physical harm America isn't a leader We are disturbingly laggard To confront this problem we must first understand it In this carefully

researched and deeply emotional book Senator Chris Murphy dissects our country's violence filled history and the role that our unique obsession with firearms plays in this national epidemic Murphy tells the story of his profound personal transformation in the wake of the mass murder at Newtown and his subsequent immersion in the complicated web of influences that drive American violence Murphy comes to the conclusion that while America's relationship to violence is indeed unique America is not inescapably violent Even as he details the reasons we've tolerated so much bloodshed for so long he explains that we have the power to change Murphy takes on the familiar arguments obliterates the stale talking points and charts the way to a fresh less polarized conversation about violence and the weapons that enable it a conversation we urgently need in order to transform the national dialogue and save lives

Gunlore Robert Glenn Howard, Eric A. Eliason, 2024-08-15 Contributions by Sandra Bartlett Atwood Nathan E Bender London Brickley Eric A Eliason Noah D Eliason Tim Frandy Robert Glenn Howard Jay Mechling Annamarie O'Brien Morel Raymond Summerville Tok Thompson and Megan L Zahay Guns are a ubiquitous part of life in the United States Arguably more pervasive than physical guns is gunlore which refers to the many folklore genres related to firearms Gunlore Firearms Folkways and Communities is the first book to engage with the many narratives rituals folk speech customs art and handicraft encompassed by gunlore Like most expressive cultures gunlore emerges from specific communities Groups with a shared interest around firearms may form for many reasons self protection hunting crime work political or social identity signaling the desire to creatively modify guns and even the resolve to oppose gun use and ownership This collection explores a range of gunlore genres and the gunfolk groups that give rise to them Contributors examine topics that include the fetishization of firearms Moms Who Carry online discussion boards alternative history cosplay survivalist communities gunsmiths and gun craft and more Gun owners and gun enthusiasts in all their varieties are one of the largest avocational groups in America The essays in Gunlore seek to expand our understanding of these communities by looking at the various roles firearms play have played and can play in our world Gunlore for better or worse is a powerful and pervasive method of self expression In examining the folklore around these controversial and politically charged tools weapons and symbols we can begin to understand aspects of American culture that will remain prominent for the foreseeable future

Democratic Education in an Armed Society Samantha Deane, 2023-11-21 Democratic Education in an Armed Society Learning to Live with Guns examines the points of intersection between school gun violence and democratic education Samantha Deane explores the connection between how we teach children to think of themselves as democratic actors and the unceasing plague of gun violence Juxtaposing two images of political agency Deane connects an essentialized view of humans as masters of themselves objects and history with discourses that aim to train individuals to be autonomous and rational users of objects like guns This liberal view gives us no way to think about how objects narratives and norms contour the selves we claim to be Deane suggests that we must learn to

attend to the ways in which our ability to act in the world is shared and distributed In a society shot through with guns and enamored with individualism the future of associational life depends on whether we learn to do democracy with the objects we hold dear

After Gun Violence Craig Rood, 2019-05-20 Mass shootings have become the new normal in American life The same can be said for the public debate that follows a shooting blame is cast political postures are assumed but no meaningful policy changes are enacted In *After Gun Violence* Craig Rood argues that this cycle is the result of a communication problem Without advocating for specific policies Rood examines how Americans talk about gun violence and suggests how we might discuss the issues more productively and move beyond our current tragic impasse Exploring the ways advocacy groups community leaders politicians and everyday citizens talk about gun violence Rood reveals how the gun debate is about far more than just guns He details the role of public memory in shaping the discourse showing how memories of the victims of gun violence the Second Amendment and race relations influence how gun policy is discussed In doing so Rood argues that forgetting and misremembering this history leads interest groups and public officials to entrenched positions and political failure and drives the public further apart Timely and innovative *After Gun Violence* advances our understanding of public discourse in an age of gridlock by illustrating how public deliberation and public memory shape and misshape one another It is a search to understand why public discourse fails and how we can do better

Ghost Guns Mark A. Tallman, 2020-08-13 With thorough analysis and balanced reporting *Ghost Guns Hobbyists Hackers and the Homemade Weapons Revolution* is an essential resource for readers seeking to understand the rise of homemade firearms and future options for managing them For more than a century strict gun control was possible because firearms were produced in centralized industrial factories Today the Fourth Industrial Revolution combining old and new technologies threatens to upend this arrangement An increasing number of hobbyists makers technology provocateurs and sophisticated criminals are proving that you don't need a factory to make guns anymore The security challenges of this transformation are increasingly apparent but the technologies behind it hold tremendous potential and while ignoring the security implications would entail risks the costs of new policies also must be evaluated Do it yourself or DIY weapons will bring significant ramifications for First and Second Amendment law international and homeland security crime control technology privacy innovation and the character of open source culture itself How can a liberal society adjust to technologies that make it easier to produce weapons and contraband Informative and thought provoking *Ghost Guns Hobbyists Hackers and the Homemade Weapons Revolution* carefully analyzes the technical legal social political and criminological trends behind this challenging new area of illicit weapons activity

The Lives of Guns Jonathan Obert, Andrew Poe, Austin Sarat, 2018-09-03 Guns have never been as prevalent in American culture as they are at this moment Most contemporary conversations on guns either highlight the gun as just a tool used in mass killings or a right to be fiercely defended eventually whatever progress these debates foster in the public conversation tend to halt altogether once the old cliché guns don't kill people people kill people is

trotted out These gun control and gun violence discussions take the gun as passive object ignoring the changing effects and the very agency that guns may deploy as politicized objects What happens if we reset the conversation and admit that guns and not the people behind them kill people The Lives of Guns offers a new and compelling way of thinking about the role of the gun in our social and political lives In gathering ideas from law science studies sociology and politics each chapter turns the stale standard gun conversations around by investigating the gun as an object with agency In approaching guns from a technological perspective down to the very science of how they are created and how they fire The Lives of Guns takes up a number of questions such as How does the presence of these objects shape civic ideology What does it mean to develop and care for gun and gun accessories technology What do guns mean to those who build them versus those who fight for and against them What could happen when drone technology meets gun technology In bringing together fresh perspectives from leading lawyers political scientists and historians The Lives of Guns promises to move the gun debate forward by opening up new ways of thinking about these issues and broadening the scope of these perennial debates
