Digitizing Flat Media Principles Practices:

Digitizing Flat Media Joy M. Perrin, 2016 Here is a concise guide to the nuts and bolts of converting flat media books papers maps posters slides micro formats etc into digital files It provides librarians and archivists with the practical knowledge to understand the process and decision making in the digitization of flat media Instead of having to learn by trial and error they will get a well rounded education of the practical aspects of digitization and have a better understanding of their options This is the stuff they don't teach you in school People can be lured into thinking that all it takes to digitize something is a scanner and some metadata This guide illustrates the practical aspects of digitization such as the physical challenges of scanning books without cutting the spine the differences between a scanner that uses a scanning head vs a scanner that uses a camera the different options for workflow for digitized items and the reasons for choosing one scanner over another for reasons other than price *Digitizing Flat Media* Joy M. Creating Accessible Online Instruction Using Universal Design Principles Brady

Lund, 2020-09-28 What is accessibility Who needs it Often accessibility is defined narrowly with emphasis on physical limitations Accessibility needs however come in many forms from vision and hearing impairment to developmental disorders like Autism to psychiatric conditions like anxiety depression ADHD and PTSD Unfortunately accessibility does not come with a simple set of checkboxes It is a philosophy and practice that embraces social physical and informational elements Universal design does not come in the form of a quick and easy guide It is a philosophy To implement it completely requires more than just screen readers and video captions *Creating Accessible Online Instruction Using Universal Design Principles* introduces the need for accessibility in online education and library services and the framework of universal design for learning It takes a scoping rather than a purely technical approach It will help you not only to create accessible content but with how to

communicate with students in an accessible manner This LITA Guide covers accessibility law Universal Design for Learning and Web Content Accessibility guidelines and communication and educational research and theory The content is interspersed with practical examples and case studies **Change the World Using Social Media** Paul

Young,Doralyn Rossmann,2017-09-01

Using Social Media to Build Library Communities A LITA Guide is a community building action manual for practitioners across the profession By bringing together an array of perspectives to explore community building through social media this book serves as the go to resource for professionals who want to take social media beyond marketing and promotion to build an inclusive and engaged community of library users Each chapter contains clear explanations of important topics for building communities through social media and readers will come away with cohesive approaches for their own libraries Using Social Media to Build Library Communities demonstrates that an energetic and committed community exists to help and guide fellow community builders **Project Management in the Library Workplace** Alice Daugherty,Samantha Schmehl

Hines,2018-05-11 This volume of Advances in Library Administration and Organization attempts to put project management into the toolboxes of library administrators through overviews of concepts analyses of experiences and forecasts for the use of project management within the profession Collection Management in the Cloud Kayla Kipps,Allison Kaiser

Jones,2022-03-11 As remote work has become routine cloud based technology tools have become increasingly necessary to communicate with other library staff and with faculty and staff to continue providing seamless and uninterrupted access to

library resources and collections for our campus community Cloud based technology tools such as Google Forms and Google Sheets are used to gather faculty requests for collection development tools such as Tableau are used to illustrate material budget balances and platforms such as Trello have been adopted to track subscription renewal cycles and manage other projects This guide discusses the benefits of using these powerful cloud based and little to no additional cost technology tools through the lens of a particular area in librarianship such as documentation data and project management communication data storage and data visualization While the real world examples provided throughout focus on technical services staff operations specifically acquisitions and electronic collection management each tool s features and use cases are transferable among all areas of librarianship This guide provides insights into how collaborative dynamic and accessible these cloud based solutions are for a technologically shifting workplace as well as considers the challenges to adopting cloud based solutions such as administrative buy in aversion to change and steeper learning curves as well Readers will gain practical experiential examples that have been instrumental in creating efficiencies in collection management workflows for technical services staff The use cases illustrated exemplify enhancements that librarians can incorporate into their own collection management practices to further engage with their colleagues their patrons and their larger communities more effectively and efficiently

Digital Civics and Citizenship Casey Davis,2021-07-05 More and more individuals today are digital natives They are comfortable with all of the advances in technology using it every day However while they may be able to access the digital world easily does not translate into being able to successfully navigate it Regardless of age and experience young adults must be mindful of their digital presence in the expanding digital world This book provides a guide for librarians educators counselors and administrators to guide secondary and higher education students in successfully practicing responsible citizenship and civics in the digital world In our world where our social credit is held increasing value digital civics and citizenship are powerful tools especially for students just venturing into this expansive realm
