The Concept of Body in Judaism, Christianity and Islam Christoph Böttigheimer, Konstantin Kamp, 2023-12-18 This volume of the series Key Concepts in Interreligious Discourses investigates the roots of the concept of body in Judaism Christianity and Islam The Body and being a created being stands in the focus of all the three major monotheistic faiths It is not just by the christian idea of man's likeness to God that indicates that the human body is a central object of religious thinking both culturally and theologically charged Here the body stands in the crossfire of terms like pure and unpure sacred and profane male and female And besides the theological controversies everyday experiences like sexuality gender equality and how to dispose of the own body and that of others are undoubtedly recent and highly contentious discussion points in the debate of a peaceful living together of different religions and cultures The volume presents the concept of body in its different aspects as anchored in the traditions of Judaism Christianity and Islam It unfolds commonalities and differences between the three monotheistic religions as well as the manifold discourses about peace within these three traditions The book offers fundamental knowledge about the specific understanding of the body in each one of these traditions their interdependencies and their relationship to secular world views

Proverbs 1-15 Bernd U. Schipper, 2019-11-05 The book of Proverbs is more than the sum of its parts Even if some individual proverbs and collections could be older the overall composition

stems from the late Persian or early Hellenistic period In its present form the book of Proverbs introduces the scribal student to the foundations of sapiential knowledge and its critical reflection By discussing different worldviews and contrasting concepts on the relationship between God the world and humanity the book of Proverbs paves the way to both the critical wisdom of Job and Ecclesiastes and the masterful combination of Wisdom and Torah in Sirach Scholarly research has long situated the book of Proverbs within ancient Near Eastern literature but declared it to be something alien within the Hebrew Bible In contrast to such a position the present commentary interprets the book of Proverbs against the background of both ancient Near Eastern literature and the literature of the Hebrew Bible One aim of the commentary is to discuss new ancient Near Eastern parallels to the book of Proverbs with a special focus on Egyptian wisdom literature including Demotic texts from the sixth to fourth centuries BCE An equally important aim of this commentary is a detailed exegesis of Proverbs 1 15 as well as an analysis of the overarching strategy of the book of Proverbs as a whole Taking the prologue of the book in Prov 1 1 7 as a hermeneutical key the book of Proverbs turns out to be a masterful composition addressing both the beginner and the advanced sage With its allusions to other biblical texts including the book of Deuteronomy the Psalms and the Prophets the book of Proverbs can be connected to forms of scribal exegesis in Second Temple literature By using the same scribal techniques as other literati of his time the scribal sage responsible for some parts of the book as well as its final compilation seeks to provide deeper insight into the complex world of scribal knowledge and sapiential thought **Academic**
