De Voorgschiedenis Van De Algemeene Landsdrukkerij:

The Bookshop of the World Andrew Pettegree, Arthur der Weduwen, 2019-04-02 The untold story of how the Dutch conquered the European book market and became the world's greatest bibliophiles The Dutch Golden Age has long been seen as the age of Rembrandt and Vermeer whose paintings captured the public imagination and came to represent the marvel that was the Dutch Republic Yet there is another largely overlooked marvel in the Dutch world of the seventeenth century books In this fascinating account Andrew Pettegree and Arthur der Weduwen show how the Dutch produced many more books than pictures and bought and owned more books per capita than any other part of Europe Key innovations in marketing book auctions and newspaper advertising brought stability to a market where elsewhere publishers faced bankruptcy and created a population uniquely well informed and politically engaged This book tells for the first time the remarkable story of the Dutch conquest of the European book world and shows the true extent to which these pious prosperous quarrelsome and generous people were shaped by what they read Book history at its best Robert Darnton New York Review of Books Compelling and impressive THES Book of the Week An instant classic on Dutch book history BMGN Low Countries Historical Review

Dutch Typography in the Sixteenth Century Paul Valkema Blouw, 2013-06-03 When compiling the short title catalogue of books printed in the sixteenth century northern Netherlands from 1541 to 1600 Paul Valkema Blouw was confronted with a large number of problem cases such as anonymously and or surreptitiously printed editions fictitious printers and undated or falsely dated printed works By minutely analysing the typefaces initials vignettes and other ornaments used drawing from his extensive knowledge of secondary literature archival information and his unrivalled typographic memory he not only managed to attribute a surprising number of these publications to a printer but also could establish the period of time in which as well as the places where they must have been printed These findings and the ways in which they were reached are described in the present collection of papers They are of paramount importance to scholars engaged in research of the period concerned whether in the field of church history national history or book history

State Communication and Public Politics in the Dutch Golden Age Arthur der Weduwen, 2024-07-19 State Communication and Public Politics in the Dutch Golden Age describes the political communication practices of the authorities in the early modern Netherlands Der Weduwen provides an in depth study of early modern state communication the manner in which government sought to inform its citizens publicise its laws and engage publicly in quarrels with political opponents These communication strategies including proclamations the use of town criers and the printing and affixing of hundreds of thousands of edicts underpinned the political stability of the seventeenth century Dutch Republic Based on systematic research in thirty two Dutch archives this book demonstrates for the first time how the wealthiest most literate and most politically participatory state of early modern Europe was shaped by the communication of political information It makes a decisive case for the importance of communication to the relationship between rulers and ruled and the extent to which early
