The National Union Catalogs, 1963- ,1964 **American Military Communities in West Germany** John W.

Lemza,2016-05-13 On April 28 1946 a small group of American wives and children arrived at the port of Bremerhaven West Germany the first of thousands of military family members to make the trans Atlantic journey They were the basis of a network of military communities Little Americas that would spread across the postwar German landscape During a 45 year period which included some of the Cold War s tensest moments their presence confirmed America s resolve to maintain Western democracy in the face of the Soviet threat Drawing on archival sources and personal narratives this book explores these enclaves of Americanism from the U S government s perspective to the grassroots view of those who made their homes in Cold War Europe These families faced many challenges in balancing their military missions with their daily lives during a period of dynamic global change The author describes interaction in American communities that were sometimes separated sometimes connected with their German neighbors **NATO's Secret Armies** Daniele Ganser,2005-06-21 This fascinating new study shows how the CIA and the British secret service in collaboration with the military alliance NATO and European military secret services set up a network of clandestine anti communist armies in Western Europe after World War II These secret soldiers were trained on remote islands in the Mediterranean and in unorthodox warfare centres in England and in the United States by the Green Berets and SAS Special Forces The network was armed with explosives machine guns and high tech communication equipment hidden in underground bunkers and secret arms caches in forests and mountain meadows In some countries the secret army linked up with right wing terrorist who in a secret war engaged in political manipulation harrassement of left wing parties massacres coup d tats and torture Codenamed Gladio the sword the Italian secret army was exposed in 1990 by Italian Prime Minister Giulio Andreotti to the Italian Senate whereupon the press spoke of The best kept and most damaging political military secret since World War II Observer 18 November 1990 and observed that The story seems straight from the pages of a political thriller The Times November 19 1990 Ever since so called stay behind armies of NATO have also been discovered in France Spain Portugal Germany Belgium the Netherlands Luxemburg Denmark Norway Sweden Finland Switzerland Austria Greece and Turkey They were internationally coordinated by the Pentagon and NATO and had their last known meeting in the NATO linked Allied Clandestine Committee ACC in Brussels in October 1990

Boon,2018-03-19 Multinational Enterprise and Transnational Regions offers an innovative approach to the study of the

history of transnational economic regions The Rhine valley is such a region comprising the cities and areas along the Rhine river and its tributaries The transition from coal to oil that unfolded between 1945 and 1973 rapidly transformed the region shattering some of the old river based connections and creating new ones with the introduction of large scale cross border oil pipelines Multinational enterprises shaped these new regional connections but divergent national government responses gave rise to differentiated development in different parts of the Rhine valley Multinational Enterprise and Transnational Regions argues that processes of regional change should be understood from transnational interconnections rather than from local or national perspectives This book uses a transnational business history methodology to tease out the region s transformation and to circumvent the national bias in public sources It will be of relevance to academics and researchers with an interest in regional and transnational European history international business environmental history and business history as well as practitioners interested in the oil industry energy and energy history business history and international business and associated disciplines
