Huck Gutman

De Verbeeldingswereld Van Edgar Allen Poe:

Subterranean Worlds Peter Fitting, 2004-12-15 Exploring the hollow earth from the 17th century to the present The bizarre idea that the earth's interior is hollow and perhaps even populated has been put to effective literary use by writers ranging from Edgar Allen Poe and Jules Verne to Rudy Rucker and Edgar Rice Burroughs This notion had respectability as a scientific hypothesis until the early 1800s and the theory that the earth is hollow and inhabitable within continues to find believers as an alternative description of the earth to this day The hollow earth is one of the most important settings in the literature of the imagination that fed into early science fiction Subterranean Worlds presents a fascinating look at the theme of the hollow earth and its history as well as the geological theories which produced many of these stories It excerpts key passages from the major subterranean world fictions some translated into English for the first time With helpful introductions to each selection and a comprehensive bibliography this book is the definitive treatment of this entertaining topic

Between Science and Fiction Hanjo Berressem, Michael Bucher, Uwe Schwagmeier, 2012 The idea that the Earth is hollow has inspired both the world of science and the world of fiction As a scientific concept this notion has informed the works of Edmond Halley and Leonhard Euler As a literary conceit it can be found in the works of Dante and E A Poe in novels by Jules Verne Arno Schmidt Thomas Pynchon and Mark Z Danielewski and in comics films and computer games This collection addresses both the scientific and the aesthetic aspects of the Hollow Earth with essays that range from medieval literature to Afrofuturism Series n 1 work science medium Vol 5 *Newsletter of the European Association for American Studies* European Association for American Studies, 1972 *Herman Melville's Foreign Reputation* Leland R. Phelps, Kathleen McCullough, 1983

As Others Read Us Huck Gutman, 1991 This collection of original essays traces the cultural impact of American literature on and in other societies Written by authors from fifteen nations from east to west north and south the essays examine not only what is studied translated and taught by scholars in each country but also what is read by the general public At a time when the traditional American literary canon is undergoing a thorough reevaluation As Others Read Us provides an important cross cultural perspective By examining the role of tradition government policy and bureaucracy in determining which texts are read and esteemed the contributors enrich our understanding of the formation and propagation of alternative literary canons By analyzing the influence of American literary texts on the values and aspirations of citizens from other countries the essayists further illuminate the complex relationship between literature and politics Though recognizable the literary landscape that emerges in this book is in many ways astonishingly different from the one with which most Americans are familiar While Poe James Faulkner and Hemingway for instance loom large as major figures on a world stage so too do Jack London and Charles Bukowski There are other surprises as well Who might imagine that Faulkner's South would intrigue Japanese readers that Israeli students would have a penchant for Puritan and colonial American literature or that the Chinese would be entranced by the writings of both Nathaniel Hawthorne and Arthur Hailey

Essay after essay in this unique collection reveals how one culture often finds reflections of itself in the historical niches of another culture s development **The British Library General Catalogue of Printed Books 1976 to 1982** British Library,1983 Library of Congress Catalog Library of Congress,1970 A cumulative list of works represented by Library of Congress printed cards **Library of Congress Catalogs** Library of Congress,1976 *Library of Congress Catalog* United States,1977 Monographic Series Library of Congress,1975
