De Stijl and Dutch Modernism Michael White, 2003-09-20 The name De Stijl title of a magazine founded in the Netherlands in 1917 is now used to identify the abstract art and functional architecture of its major contributors Mondrian Van Doesburg Van der Leek Oud Wils and Rietveld De Stijl achieved international acclaim by the end of the 1920s and its paintings buildings and furniture made fundamental contributions to the modern movement This book is the first to emphasize the local context of De Stijl and explore its relationship to the distinctive character of Dutch modernism It examines how the debates concerning abstraction in painting and spatiality in architecture were intimately connected to contemporary developments in the fields of urban planning advertising interior design and exhibition design The book describes the interaction between the world of mass culture and the fine arts

Cultural Mobility in the Interwar Avant-Garde Art Network Michał Wenderski, 2018-07-27 This book explores the issue of cultural mobility within the interwar network of the European avant garde focusing on selected writers artists architects magazines and groups from Poland Belgium and Netherlands Regardless of their apparent linguistic cultural and geographical remoteness their mutual exchange and relationships were both deep and broad and of great importance for the wider development of interwar avant garde literature art and architecture This analysis is based on a vast research corpus encompassing original often previously overlooked periodicals publications and correspondence gathered from archives around the world

Avant-Garde and Criticism, 2015-06-29 *Avant Garde and Criticism* sheds new light on the complex aims functions practices and contexts of art criticism in relation to the European avant garde Although many avant garde works and the avant gardes of various countries have been analyzed considerably less attention has been given to the reviews in newspapers and journals on avant garde literature art architecture and film This volume of *Avant Garde Critical Studies* will look at how art critics operated in a strategic way The strategies of avant garde criticism are diverse Art critics especially when they are artists themselves attempt to manipulate the cultural climate in their favour They use their position to legitimize avant garde concepts and to conquer a place in the cultural field But they are also markedly influenced by the context in which they operate The position of fellow critics and the ideological bias of the papers in which they publish can be as important as the political climate in which their criticism flourishes The analysis of avant garde art criticism can also make clear how strategies sometimes fail and involuntarily display non avant garde characteristics On the other hand traditionalist criticism on the avant garde offers new insights into its status and reception in a given time and place This volume is of interest for scholars teachers and students who are interested in the avant garde of the interbellum period and work in the field of literature art film and architecture
