Clearly Invisible Racial Passing And The Color Of Cultural Identity:

Clearly Invisible Marcia Alesan Dawkins, 2012 Everybody passes Not just racial minorities As Marcia Dawkins explains passing has been occurring for millennia since intercultural and interracial contact began And with this profound new study she explores its old limits and new possibilities from women passing as men and able bodied persons passing as disabled to black classics professors passing as Jewish and white supremacists passing as white Clearly Invisible journeys to sometimes uncomfortable but unfailingly enlightening places as Dawkins retells the contemporary expressions and historical experiences of individuals called passers Along the way these passers become people people whose stories sound familiar but take subtle turns to reveal racial and other tensions lurking beneath the surface people who ultimately expose as much about our culture and society as they conceal about themselves Both an updated take on the history of passing and a practical account of passing s effects on the rhetoric of multiracial identities Clearly Invisible traces passing s legal political and literary manifestations questioning whether passing can be a form of empowerment even while implying secrecy and suggesting that passing could be one of the first expressions of multiracial identity in the U S as it seeks its own social standing Certain to be hailed as a pioneering work in the study of race and culture Clearly Invisible offers powerful testimony to the fact that individual identities are never fully self determined and that race is far more a matter of sociology than of biology

Clearly Invisible Marcia Alesan Dawkins, 2012 **Visibilities and Invisibilities of Race and Racism** Yasuko Takezawa, Faye V. Harrison, Akio Tanabe, 2025-01-28 Takezawa Harrison Tanabe and their contributors present a multi sited transnational and intercultural perspective on racism shifting its emphasis away from the conventional North Atlantic interpretive frameworks to better understand its fundamental nature Racism is not a uniquely transatlantic phenomenon but because it is most often understood within Euro American paradigms its salience in other contexts is often less visible The chapters in this volume analyze the process by which fundamentally invisible differences have been made visible and various groups and communities have been marked essentialized and substantialized under a range of social political and cultural conditions Focusing on the space between the visible and invisible they evaluate the dynamics by which invisible differences are rendered visible and by which visible differences render other differences invisible In doing so they promote a decentering of Western centered frameworks and elucidate continuities with and discontinuities from past era of racial antagonism and conflict They look at case studies ranging from Japan India and Southeast Asia to Iceland the United States and intra white racism in Europe The strength of this work lies in its exploration of the varied modalities of race and racism particularly those that deviate from the conventional visibly identifiable notions of race thus broadening the understanding of racism beyond traditional paradigms An important contribution to the re worlding of the study of racism for scholars researchers and students of anthropology sociology ethnic studies and intercultural studies Invisible Blackness Katy Morlas Shannon, 2025-03-13 Invisible Blackness explores the complex lives of Creoles of mixed race born in Louisiana to

enslaved women and the white men who enslaved them. Individuals such as Alice Thomasson Grice forged their own identities and often reinvented themselves within the increasingly strict racial order of antebellum and postbellum Louisiana. Alice Thomasson Grice occupied an unusual position among mixed race Creoles of her era as her white father recognized her formerly enslaved mother as his wife and raised Alice and her siblings as free people. After Alice married a white steamboat captain Charles Grice, she and her children chose to identify as white. *Invisible Blackness* explores why Alice, her children, and friends in similar positions elected to cross the color line during the so-called great age of passing that spanned from 1880 to 1925. While it's impossible to quantify the number of people who crossed the color line at any given time, evidence suggests that the rate of passing corresponded closely with the severity of anti-Black oppression and discrimination. By the 1890s, when the Supreme Court upheld Jim Crow laws and lynchings were on the rise, Black people who could pass had a strong motivation to do so. For the Grices, passing afforded the only means of social, economic, and political advancement available to them. Drawing on a vast array of primary sources ranging from sacramental records and bills of sale to wills and military pension files, *Invisible Blackness* sheds light on how this liminal group of individuals defined themselves and shaped their identities. The lives of the Grices and people like them underscore that race is both a social construct and a significant lived reality. Beyond these broad, pressing historical questions lie issues of love, family, and the universal quest for belonging that transcend time, place, and race.

The Colors of Love Melinda A. Mills, 2021-12-07. How multiracial people navigate the complexities of race and love. In the United States, more than seven million people claim to be multiracial or have racially mixed heritage, parentage, or ancestry. In *The Colors of Love*, Melinda A. Mills explores how multiracial people navigate their complex and often misunderstood identities in romantic relationships. Drawing on sixty interviews with multiracial people in interracial relationships, Mills explores how people define and assert their racial identities both on their own and with their partners. She shows us how similarities and differences in identity, skin color, and racial composition shape how multiracial people choose to experience and navigate love. Mills highlights the unexpected ways in which multiracial individuals choose to both support and subvert the borders of race as individuals and as romantic partners. *The Colors of Love* broadens our understanding about race and love in the twenty-first century.

Beyond Equality Savannah N. Landerholm, 2024-11-12. Women desire to move past resistance, sticky floors, glass ceilings, glass cliffs, and fulfill their potential for leadership. This book shows that equality is necessary yet insufficient, as evidenced by the experiences of women leaders. Responsive agency is the answer to the empty goal of equality.

Century British Literature John Bliss,2023-07-19 This book focuses on the representation of the practitioner of the occult in mid to late nineteenth century British literature The occult was a source of emotional support and scientific curiosity during this time of change and uncertainty because it seemed to offer answers to both spiritual and scientific questions through measurable albeit unconventional means However the occult was also viewed as a threat to British society an assault on it values and a fundamental danger to emerging scientific enterprise By examining the ways in which the occult and its practitioners are represented in British novels from 1850 1900 this book traces the ways that the novels commented on participated in and contributed to the racialization of the occult that occurred throughout the nineteenth century in Britain The representations of the occult characters in these novels interpreted and transmitted the social political economic and scientific discourses about race in the nineteenth century to the reading public as well as participating in the discourse surrounding race and the occult *Finnishness, Whiteness and Coloniality* Josephine Hoegaerts,Tuire Liimatainen,Laura Hekanaho,Elizabeth Peterson,2022-08-22 This multidisciplinary volume reflects the shifting experiences and framings of Finnishness and its relation to race and coloniality The authors centre their investigations on whiteness and unravel the cultural myth of a normative Finnish white ethnicity Rather than presenting a unified definition for whiteness the book gives space to the different understandings and analyses of its authors This collection of case studies illuminates how Indigenous and ethnic minorities have participated in defining notions of Finnishness how historical and recent processes of migration have challenged the traditional conceptualisations of the nation state and its population and how imperial relationships have

contributed to a complex set of discourses on Finnish compliance and identity. With an aim to question and problematise what may seem self-evident aspects of Finnish life and Finnishness, expert voices join together to offer counter-perspectives on how Finnishness is constructed and perceived. Scholars from cultural studies, history, sociology, linguistics, genetics, among others, address four main topics:

1. Imaginations of Finnishness, including perceived physical characteristics of Finnish people
2. Constructions of whiteness, entailing studies of those who do and do not pass as white
3. Representations of belonging and exclusion, making up of accounts of perceptions of what it means to be Finnish
4. Imperialism and colonisation, including what might be considered uncomfortable or even surprising accounts of inclusion and exclusion in the Finnish context.

This volume takes a first step in opening up a complex set of realities that define Finland's changing role in the world and as a home to diverse populations.
