Celestial Navigation Using The Sight Reduction Tables From Pub No 249:

Celestial Navigation Dominique F. Prinet, 2014-07-17 This manual has grown out of all the courses given by Dominique Prinet a certified Instructor Evaluator for Sail Canada who has been teaching celestial navigation since 2000 It has benefitted from the thoughtful contributions of over 100 students The aim of Celestial Navigation is to give a sufficient grounding in the subject to determine position at sea using a sextant for fixes on the sun moon stars and planets Furthermore the material presented will prepare a reader who wishes to pursue a Celestial Navigation Certificate through self study The subject requires some comfort with the basic concepts of navigation but the prospective navigator only needs to know how to add and subtract either times or angles Lucid and well paced Celestial Navigation starts with fundamentals and definitions which ensure that a motivated student need not bring anything more to the table than his or her willingness to master the subject Richly illustrated it includes a chapter with more than forty pages of review exercises covering all topics The cleverness of many of the concepts explained here will bring about great intellectual joy and satisfaction Whether you are a recreational sailor or an individual pursuing professional certification as a navigator Celestial Navigation will teach you what you need to know

Celestial Navigation Exercises for Class and Home study Dominique F. Prinet, 2016-01-14 About the Manual Celestial Navigation Exercises for Class and Home Study was designed to facilitate the work of instructors using the free PowerPoint slide presentation available at CelestialNavigationBook.com This exercise manual available in hard copy and in PDF format for tablets reproduces the questions posed at regular intervals throughout the slide presentation it provides the work forms guiding the calculations and the solutions Students taking a course from an instructor who follows the slide presentation will normally have the associated course book Celestial Navigation using the Sight Reduction Tables Pub No 249 In order to facilitate the download process the free version of the exercise manual available for download from CelestialNavigationBook.com includes neither the Almanac nor the Sight Reduction Tables required for the calculations because these tables are identical to the ones in the course book This complete version of the exercise manual with all the required data tables in the appendix will thus be useful mostly to navigators who do not have the course book but wish to practice on their own as well as to students who follow the presentation and have the course book but do not wish to download and print 140 pages of questions and answers

American Practical Navigator: Text and appendices. 1977 ed Nathaniel Bowditch, 1975 **Coastal Navigation**

Dominique F. Prinet, 2017-01-09 Coastal Navigation for Class and Home Study is based on the notes prepared for students by the author during some 20 years of teaching navigation initially to private or commercial pilots and then to sailors and professional mariners The book is copiously illustrated with graphics which explain chart projections scales and symbols and describe lights and other navigation aids It demystifies the True Magnetic and Compass Norths as well as problems of time speed and distances and explains how to plot courses and take bearings or draw regular and advanced Lines of Position

using the international system of labeling The book further clarifies the use of vectors to easily determine the impact of a current on the boat speed and direction and goes on to show how to evaluate tides and currents The final sections describe the use of GPS and electronic charts highlighting their limitations Additional notes and explanations are given in the areas where students traditionally experience difficulties as well as supplementary examples and exercises The companion book Coastal Navigation Exercises offers all the exercises needed for practice Tables from American Practical Navigator Nathaniel Bowditch, 1962 Air Navigation United States.
