Climate Change Debating Americas Policy Options:

Climate Change David G. Victor, 2004 Council on Foreign Relations This book provides a balanced and comprehensive account of the issues involved in climate change and the range of domestic and foreign policy options available to American policymakers *Climate Change* David G. Victor, 2005 Climate Change Policy Dieter Helm, 2005-05-05 The threat posed by climate change has not yet been matched by international agreements and economic policies that can deliver sharp reductions in greenhouse gas emissions Although the Kyoto Protocol has now been ratified by Russia and hence come into legal effect the USA China and India are all outside its emissions caps Few European countries are on course to meet their own national targets and even if fully implemented it is widely acknowledged that the Kyoto Protocol would make little difference to the carbon concentrations in the atmosphere In consequence there is a search for a post Kyoto framework new institutions and new economic policies to spread the costs and meet them in an economically efficient way Carbon taxes and emissions trading are in particular being established in a number of developing countries This volume provides an accessible overview of the economics of climate change the policy options and the scope for making significant carbon reductions
