

COOL CROCODILES

Saltwater crocodiles can be found across a huge range, from northern Australia to eastern India and South-east Asia.

They are the largest reptile in the world, and can grow up to 6.5m long and weigh up to 1000kg.

Their powerful jaws are 45 times stronger than a human's bite and 6 times stronger than a great white shark!

Saltwater crocodiles have about 66 teeth that get replaced every 2-3 years and can go through over 3000 teeth in a lifetime!

COOL CROCODILES

Saltwater Crocodiles are very powerful predators. They usually catch their prey by ambushing them from the water. They eat anything they can catch including fish, turtles, birds, reptiles and mammals.

Crocodiles do not chew their food. Instead, they rip off chunks of meat and then swallow it whole.

They have a valve at the back of their mouth that seals it off from their throat, allowing them to open their mouths underwater.

Large saltwater crocodiles can stay underwater for up to an hour because they can reduce their heart rate to 2-3 beats per minute.
