Delimiting Anthropology Occasional Inquiries And Reflections:

Delimiting Anthropology George W. Stocking, 2001 It is George Stocking more than anyone else who has made the history of anthropology available to us Daniel A Segal American Anthropologist Anthropology and Global Counterinsurgency John D. Kelly, Beatrice Jauregui, Sean T. Mitchell, Jeremy Walton, 2010-04-15 Global events of the early twenty first century have placed new stress on the relationship among anthropology governance and war Facing prolonged insurgency segments of the U S military have taken a new interest in anthropology prompting intense ethical and scholarly debate Inspired by these issues the essays in Anthropology and Global Counterinsurgency consider how anthropologists can should and do respond to military overtures and they articulate anthropological perspectives on global war and power relations This book investigates the shifting boundaries between military and civil state violence perceptions and effects of American power around the globe the history of counterinsurgency doctrine and practice and debate over culture knowledge and conscience in counterinsurgency These wide ranging essays shed new light on the fraught world of Pax Americana and on the ethical and political dilemmas faced by anthropologists and military personnel alike when attempting to understand and intervene in our world Anthropologica, 2004 Body and Soul Robert S. Cox, 2003-09-29 A product of the spiritual hothouse of the Second Great Awakening Spiritualism became the fastest growing religion in the nation during the 1850s and one of the principal responses to the widespread perception that American society was descending into atomistic particularity In Body and Soul Robert Cox shows how Spiritualism sought to transform sympathy into social practice arguing that each individual living and dead was poised within a nexus of affect and through the active propagation of these sympathetic bonds a new and coherent society would emerge Phenomena such as spontaneous somnambulism and sympathetic communion with the dead whether through s ance or spirit photography were ways of transcending the barriers dissecting the American body politic including the ultimate barrier death Drawing equally upon social occult and physiological registers Spiritualism created a unique social physiology in which mind was integrated into body and body into society leading Spiritualists into earthly social reforms such as women s rights and anti slavery From the beginning however Spiritualist political and social expression was far more diverse than has previously been recognized encompassing distinctive proslavery and antiegalitarian strains and in the wake of racial and political adjustments following the Civil War the movement began to fracture Cox traces the eventual dissolution of Spiritualism through the contradictions of its various regional and racial factions and through their increasingly circumscribed responses to a changing world In the end he concludes the history of Spiritualism was written in the limits of sympathy and not its limitless potential Anthropology off the Shelf Alisse Waterston, Maria D. Vesperi, 2011-01-04 In Anthropology off the Shelf leading anthropologists reflect on the craft of writing and the passions that fuel their desire to write books First of its kind volume in anthropology in which prominent anthropologists and 3 respected professionals outside the discipline follow the tradition of the writers on writing genre to reflect on all aspects of the writing

process Contributors are high profile in anthropology and many have a strong presence outside the field in popular culture Unique in its format short essays revealing and straightforward in content and writing style

Historicizing Canadian Anthropology Julia Harrison, Regna Darnell, 2011-11-01 Historicizing Canadian Anthropology is the first significant examination of the historical development of anthropological study in this country It addresses key issues in the evolution of the discipline the shaping influence of Aboriginal anthropological encounters the challenge of compiling a history for the Canadian context and the place of international and institutional relations The contributors to this collection reflect on the definition and scope of the discipline and explore the degree to which a uniquely Canadian tradition affects anthropological theory practice and reflexivity Historicizing Canadian Anthropology is a watershed that will revitalize critical reflexivity within the field With contributions from a broad cross section of anthropologists from senior scholars to doctoral students this book is essential reading for practising Canadian anthropologists their students and others who seek to understand the historical contours of the field

Political Biology M. Meloni, 2016-05-25 This book explores the socio political implications of human heredity from the second half of the nineteenth century to the present postgenomic moment It addresses three main phases in the politicization of heredity the peak of radical eugenics 1900 1945 characterized by an aggressive ethos of supporting the transformation of human society via biological knowledge the repositioning after 1945 of biological thinking into a liberal democratic human rights framework and the present postgenomic crisis in which the genome can no longer be understood as insulated from environmental signals In Political Biology Maurizio Meloni argues that thanks to the ascendancy of epigenetics we may be witnessing a return to soft heredity the idea that these signals can cause changes in biology that are themselves transferable to succeeding generations This book will be of great interest to scholars across science and technology studies the philosophy and history of science and political and social theory

Theater and Cultural Politics for a New World Chinua Thelwell, 2016-10-14 Theater and Cultural Politics for a New World presents a radical re examination of the ways in which demographic shifts will impact theater and performance culture in the twenty first century Editor Chinua Thelwell brings together the revealing insights of artists scholars and organizers to produce a unique intersectional conversation about the transformative potential of theater Opening with a case study of the New WORLD Theater and moving on to a fascinating range of essays the book looks at five main themes Changing demographics Future aesthetics Making institutional space Critical multiculturalism Polyculturalism
