they need Written and edited by international experts and opinion leaders in the field this book is a valuable reference resource for general and emergency surgeons trauma surgeons emergency physicians and nurses It will also be of interest to residents students and all other healthcare professionals involved in the management of emergency surgical patients *The New Cambridge Medieval History: c. 1024-c. 1198. Pt. 1 and 2* Rosamond McKitterick, Paul Fouracre, Timothy Reuter, David Edward Luscombe, David Abulafia, Jonathan Riley-Smith, Christopher Allmand, Michael Jones, 1995 Just War Thinkers Revisited Daniel R. Brunstetter, Cian O'Driscoll, 2024-11-25 This book comprises essays that focus on a range of thinkers who challenge the boundaries of the just war tradition The ethics of war scholarship has become a rigid and highly disciplined activity closely associated with a very particular canon of thinkers This volume moves beyond this by presenting thinkers not typically regarded as part of that canon but who have interesting and potentially important things to say about the ethics of war The book presents 20 profile essays on an eclectic cast of heretics humanists and radicals from ancient Greece to the twenty first century who lived through and theorized about violence The book asks how ethics of war scholars might benefit from engaging with them Some of these thinkers engage directly with to augment or criticize the just war tradition while others contribute to military thinking across the ages pushing the boundaries of what was acceptable in war Many proffer alternative moral frameworks regarding the legitimacy of political violence The present volume thus invites scholars to reconsider the ethics of war in a way that challenges the standard delineation between just war theory realism and pacifism and to reflect on how those positions might inform our own approach to these matters This book will be of much interest to students of just war theory ethics of war war studies and International Relations Edmond Richer and the Renewal of Conciliarism in the 17th century Philippe Denis, 2019-08-12 In 1611 Edmond Richer the syndic of the Faculty of Theology of Paris published a short but incisive defence of the conciliarist doctrine under the title *De ecclesiastica et politica potestate* He claimed that this doctrine had been almost uninterruptedly followed by the University of the Paris since the time of the Council of Constance in the early 15th century Within two years at least six Latin French or bilingual editions of the treatise saw the light as well as an English and a Dutch translation The book was condemned at a meeting of the French bishops in March 1612 and its author was dismissed from his position of syndic of the Faculty of Theology a few months later He withdrew from public life but remained influential He continued to write in defence of the conciliarist doctrine and the so called liberties of the Gallican Church until his death in 1631 He vehemently opposed Cardinal Bellarmine's doctrine of the indirect power of popes in temporal matters but never subscribed to the doctrine of the divine power of kings Most of his books were published posthumously Philippe Denis retraces Edmond Richer's career and examines his ecclesiological and political thinking Without taking all the syndic's opinions at face value this volume commits itself to taking seriously Richer's declared intention which was to vindicate the teaching of the School of Paris and that of Jean Gerson in particular Philippe Denis places the heated sometimes aggressive debates between Richer and his adversaries in the context of a double

progression that of the doctrine of an absolute monarchy a form of government which had been developing since the troubles of the League and that of the Ultramontane ideas often disputed but supported with growing vigour in France and elsewhere in the context of the reception of the Council of Trent Philippe Denis presents the English translation of his book originally published in French Editions du Cerf in Paris 2014
