The desktop computing landscape is evolving. As organizations and their workforces become increasingly distributed and mobile, an explosion of new end-user devices has exacerbated the challenges being faced by IT departments. Traditional computing has addressed the key customer pain points in a limited fashion.

Dell's new desktop computing vision — Flexible Computing — delivers validated solutions (hardware, software, and services) that augment Dell's traditional desktop offerings and enable IT departments to navigate their increasingly complex environment. In doing so, customers can now confidently invest in a client device that supports the right solution for today with the flexibility to support the needs of tomorrow.
