De Amerikaanse Revolutie:

Geschiedenis is nooit geschiedenis Frans-Jos Verdoodt, 2001 Dit handboek verbindt de wetenschappelijke geschiedschrijving en de methodische kennisoverdracht nadrukkelijk met elkaar Het is in wezen een studieboek voor hoger onderwijs maar beantwoord tegelijk de vraag naar historisch inzicht en de journalistieke belangstelling van de individuele lezer De geschiedenis wordt doorgetrokken tot het meest nabije verleden recente evoluties in het wereldcommunisme de werking van de Belgische instellingen na de staatshervorming enz *Groen van Prinsterer in Europese context* J. de Bruijn, G. Harinck, 2004 *Aera van Europa* Jan Romein, 2023-12-28 **Napoleon voor Dummies** J.D. Blom, E. Lamberts, 2006-06 The history of the smaller European countries is rather neglected in the teaching of European history at university level We are therefore pleased to announce the publication of the first comprehensive history of the Low Countries in English from Roman Times to the present Remaining politically and culturally fragmented with its inhabitants speaking Dutch French Frisian and German the Low Countries offer a fascinating picture of European history en miniature For historical reasons parts of northern France and western Germany also have to be included in the Low Countries a term that must remain both broad and fluid a convenient label for a region which has seldom if ever composed a unified whole In earlier ages it was even more difficult to set the region's parameters again reflecting Europe as a whole when tribes and kingdoms stretched across expanses not limited to the present states of Belgium Luxembourg and the Netherlands Nevertheless its parts did demonstrate many common traits and similar developments that differentiated them from surrounding countries and lent them a distinct character Internationally the region often served both as a mediator for and a buffer to the surrounding great powers France Britain and Germany an important role still played today as Belgium and the Netherlands have increasingly become involved in the broader process of European integration in which they often share the same interest and follow parallel policies This highly illustrated volume serves as an ideal introduction to the rich history of the Low Countries for students and the generally interested reader alike *Geschiedenis voor Dummies [pocketeditie]* P.
