Thomas George Tucker

De Avonturen Van Algernon Sydney Potts:

The Foreign Debt of English Literature Thomas George Tucker, 2020-09-28 A just appreciation of any modern European literature is not to be derived from the study of that literature alone Not one has grown up spontaneously and independently from the soil of the national genius Some seeds at least have come from elsewhere Often whole forms of writing have been transplanted bodily We must particularly recognize these truths when dealing with English literature The basis of the English mind is chiefly Teutonic in some measure Celtic If the English genius had been left to itself to develop its spiritual and intellectual creations in its own way English literature would have been a very different thing in both substance and form But in reality English literary history is the story of the Teutonic and Celtic tendencies corrected and clarified and the Teutonic and Celtic invention immensely assisted by influences and ideas flowing in from other sources There have been large ingraftings from other stocks either partially kindred or altogether alien from Greeks Romans Italians French Spaniards Germans as well as from Hebrews and other Orientals All sound study is comparative We must place other literatures beside our own if we desire to appraise rightly our national genius its capacities and its creations We find our English writers composing their works in certain forms and giving expression to a certain range of ideas How came they to employ these particular forms of creation How did they arrive at these particular ideas How is it with other nations Have they built upon the same lines and with the same materials or how is it with them Have we borrowed from them or they from us If there have been borrowings when and in what measure did they occur Looking back over the changes of spirit and form which our poetry for example has undergone we shall encourage altogether false notions of the causes of such changes unless we see how every now and then a shower of new ideas a stream of new light has come in from abroad Most readers know in some vague way that Chaucer avows or betrays his debts to France and Italy that Shakespeare did not invent his own plots but borrowed from Italians from Plautus from Plutarch and others that Milton was steeped in the Greek Latin and Italian classics But we want to know more than this We want to perceive with some definiteness how far the whole course of English literature has been enriched by tributary streams and what sort of waters they brought It would be instructive to draw a diagram of our literary history to liken it to the course of a river and to picture its various fountain heads and tributaries pouring in their several quotas at their several times In all modern literatures there is a large proportion which is unoriginal to them Milton has been mentioned already Those who read only English works find Milton full of nobility of thought and imagery Yet before Milton produced his greater poems he had read re read and deliberately steeped himself in the literature of Greece Rome modern Italy and France Precisely how much of Milton is made up of Homer Euripides Virgil Dante Ariosto and other predecessors can only be known to such as have those authors at their finger ends Shelley again is commonly regarded as one of the most daringly original of English writers Yet Shelley s mind was an amalgam of himself Homer Euripides Plato Virgil Dante Calderon Goethe and this once more is but another way of saying that it had incorporated the

genius of generations of Greeks Romans Spaniards Italians and Germans We cannot therefore arrive at the true genius of Milton or of Shelley or speak understandingly of their originality until we have surveyed those other literatures and their relations with our own Let us indeed claim with a proper national pride that the influence of English literature of our Shakespeare our Bacon our Locke our Byron upon foreign writers has been profound Her debt to modern literature has been repaid by England and at least in the influence of Shakespeare more than repaid But with that question we are not here concerned
