

Cisco Aironet 1100 Series Access Point

The Cisco Aironet® 1100 Series Access Point provides a high-speed, secure, affordable, and easy-to-use wireless LAN solution that combines the freedom and flexibility of wireless networking with the features and services required in enterprise networks (Figure 1). The Cisco Aironet 1100 Series supports a single radio and is available in an IEEE 802.11g version or IEEE 802.11b version. The IEEE 802.11b version is field upgradable to 802.11g.

The access point offers flexibility and investment protection for wireless networks. With the IEEE 802.11g version, users can enjoy up to 54-Mbps data rates while maintaining full backward compatibility with legacy 802.11b devices. Administrators can configure the access point to support both 802.11g and legacy 802.11b clients for investment protection or, for higher performance, it may be configured to support only 802.11g clients. The Cisco Wireless Security Suite provides the strongest enterprise security solution available while the Cisco IOS® Software operating system delivers enterprise-class services with a familiar user interface. The Cisco Aironet 1100 Series also features integrated diversity dipole antennas and an innovative mounting system for easy installation and reliable coverage in a variety of locations and orientations.

Figure 1

An access point either is the center point in an all-wireless network or serves as a connection point between wired and wireless networks. Multiple access points provide throughout a facility to give users with 802.11b or 802.11g wireless LAN client adapters the ability to roam freely throughout an extended area while maintaining uninterrupted access to all network resources.
