China, Russia, and Twenty-First Century Global Geopolitics Paul J. Bolt, Sharyl N. Cross, 2018-02-09 This book provides a comprehensive analysis of the Chinese Russian bilateral relationship grounded in a historical perspective and discusses the implications of the burgeoning strategic partnership between these two major powers for world order and global geopolitics. The volume compares the national worldviews priorities and strategic visions for the Chinese and Russian leadership examining several aspects of the relationship in detail. The energy trade is the most important component of economic ties although both sides desire to broaden trade and investments. In the military realm Russia sells advanced arms to China and the two countries engage in regular joint exercises. Diplomatically these two Eurasian powers take similar approaches to conflicts in Ukraine and Syria and also cooperate on non traditional security issues including preventing coloured revolutions cyber management and terrorism. These issue areas illustrate four themes. Russia and China have common interests that cement their partnership including security protecting authoritarian institutions and re shaping aspects of the global order. They are key players not only influencing regional issues but also international norms and institutions. The Sino Russian partnership presents a potential counterbalance to the United States and democratic nations in shaping the contemporary and emerging geopolitical landscape. Nevertheless the West is still an important partner for China and Russia. Both seek better relations with the West but on the basis of mutual respect and equality. Lastly Russia and China have frictions in their relationship and not all of their interests overlap. The Sino Russian relationship has gained considerable momentum particularly since 2014 as Moscow turned to Beijing attempting to offset tensions with the West in the aftermath of Russia's annexation of Crimea and intervention in Ukraine. However so far China and Russia describe their relationship as a comprehensive strategic partnership but they are not allies.

China's Offensive in Europe Philippe Le Corre, Alain Sepulchre, 2016-05-17 A portrait of China's new economic passion toward Europe. For years China's international investment interests focused on a search for natural resources in Africa Asia and Latin America. Recently China's focus has shifted to Europe as well as the United States and to new fields as diverse as real estate energy hospitality transportation and heavy industry. Chinese foreign investment is expected to grow throughout Europe in the years to come. For instance the financial crisis centered in Greece and the fall of the euro have helped China and some of its corporations create a new partnership within the European Union working to expand the country's power through finance and infrastructure. *China's Offensive in Europe* studies the trends sectors and target countries of Chinese investments in Europe. It looks at cases of outbound investment trajectories and journeys by some key Chinese private and state owned companies. It also takes a look at European perceptions of China a country with a very different history and very different traditions from the Western world. Philippe Le Corre and Alain Sepulchre examine how China's presence in Europe can serve as a benchmark to other developed economies especially the United States which is also seeing a rise in Chinese investments.

China's Asian

Dream Tom Miller, 2019-07-15 China Napoleon once remarked is a sleeping lion Let her sleep for when she wakes she will shake the world In 2014 President Xi Jinping triumphantly declared that the lion had awoken From holding its ground in trade wars with the US to presenting itself as a world leader in the fight against climate change a newly confident China is flexing its economic muscles for strategic ends With the Belt and Road initiative billed as a new Silk Road for the 21st Century China is set to extend its influence throughout Eurasia and across the South China Sea and the Indian Ocean But with the Chinese and US militaries also vying over the Pacific does this newfound confidence put China on a collision course with the US Combining a geopolitical overview with on the ground reportage from a dozen countries this new edition of China's Asian Dream engages with the most recent developments in the ongoing story of China's ascendancy and offers new insights into what the rise of China means not only for Asia but for the world

China's Foreign Aid and Investment Diplomacy, Volume II John F. Copper, 2016-04-29 Today by many accounts China is the world's foremost purveyor of foreign aid and foreign investment to developing countries This is the product of China's miracle economic growth over a period of more than three decades together with China's drive to become a major player in world affairs and accomplish this through economic rather than military means This three volume work is the first comprehensive study of China's aid and investment strategy to trace how it has evolved since Beijing launched its foreign aid diplomacy at the time of the founding of the People's Republic of China in 1949 Volume II provides an analysis of China's foreign aid and investment to countries and regional organizations on the Asian continent covering all of its major sub regions during the period from 1950 to the present day Copper considers motivating factors such as the Korean War the Vietnam War and China's desire to challenge the West and later the Soviet Union Also important to China and driving its aid and investment was China's pursuit of Communist Bloc solidarity a search for secure borders and competition with India for influence in the Third World Securing its imports of energy and raw materials and markets for its products came later Marginalizing Taiwan and defeating it diplomatically constituted another goal of China's foreign aid and foreign investment analyzed here

Mosher, 2017-11-27 The Once and Future Hegemon In a world bristling with dangers only one enemy poses a truly mortal challenge to the United States and the peaceful and prosperous world that America guarantees That enemy is China a country that invented totalitarianism thousands of years ago whose economic power rivals our own that believes its superior race and culture give it the right to universal deference that teaches its people to hate America for standing in the way of achieving its narcissistic dream of world domination that believes in its manifest destiny to usher in the World of Great Harmony which publishes maps showing the exact extent of the nuclear destruction it could rain down on the United States Steven Mosher exposes the resurgent aspirations of the would be hegemon and the roots of China's will to domination in its five thousand year history of ruthless conquest and assimilation of other nations brutal repression of its own people and belligerence toward any civilization that challenges its claim to superiority The naive idealism of our China hands has lulled America into a fool's dream of engagement with the People's Republic of China and its peaceful evolution toward democracy and freedom Wishful thinking says Mosher has blinded us to the danger we face and left the world vulnerable to China's overweening ambitions Mosher knows China as few Westerners do Having exposed as a visiting graduate student the monstrous practice of forced abortions he became the target of the regime's crushing retaliation His encyclopedic grasp of China's history and its present day politics his astute insights and his bracing realism are the perfect antidote for our dangerous confusion about the Bully of Asia
