Norms and Standards for Language Resources Protection in China , 2025-01-06 This open access book presents standards which were developed by the Project for the Protection of Language Resources of China PPLRC At present China is home to some of

the world's richest language resources. However, in the course of globalization and urbanization, many dialects and dialect cultures are now in danger of being irretrievably lost. The PPLRC was launched in 2015 and has since produced the world's largest language resources database, zhongguoyuyan.cn. Against this backdrop, the international conference on Role of Linguistic Diversity in Building a Global Community with Shared Future, Protection, Access and Promotion to Global Language Resources, was jointly held by the Chinese Government and the UNESCO in 2018. During the conference, Protection and Promotion of Linguistic Diversity of the World Yuelu Proclamation was adopted. The book includes three parts:

1. Congratulatory message from Ms Audrey Azoulay: UNESCO promotes linguistic diversity by contributing to the preservation and revitalization of endangered languages. She expresses her hope that the conference will enhance the consensus of countries on the protection of language resources and create more opportunities for communication and cooperation.
2. The Protection and Promotion of Linguistic Diversity of the World Yuelu Proclamation: It is the first UNESCO text of its kind dedicated to the protection of linguistic diversity and is considered a landmark document that will play a central role in guiding the efforts of countries and regions around the world in protecting linguistic resources and diversity.
3. Four standards: The first three standards were developed by the PPLRC and concern the investigation and protection of dialects, minority languages and dialect cultures in China. The fourth standard represents the guidelines for the PPLRC. The four standards reflect the valuable experience of PPLRC and offer other countries and regions a blueprint for protecting language resources and promoting linguistic and cultural diversity.

Java Language Features Kishori Sharan, 2018-02-24

Work with essential and advanced features of the Java programming language such as Java modules, development, lambda expressions, closures, inner classes, threads, I/O, Collections, garbage collection and more. Author Kishori Sharan provides over 50 diagrams and 290 complete programs to help you visualize and better understand the topics covered in this book.

Java Language Features Second Edition starts with a series of chapters on the essential language features provided by Java, including annotations, reflection and generics. These topics are then complemented by details of how to use lambda expressions, allowing you to build powerful and efficient Java programs. The chapter on threads follows this up and discusses everything from the very basic concepts of a thread to the most advanced topics such as synchronizers, the fork/join framework and atomic variables. This book contains unmatched coverage of Java NIO, the Stream API, the Path API, the FileVisitor API, the watch service and asynchronous file I/O. With this in-depth knowledge, your data and file management programs will be able to take advantage of every feature of Java's powerful I/O framework and much more. Additionally, three appendices are available for free via the Download Source Code on apress.com. These appendices will give you a head start on the most important features of Java 10 and the new Java versioning scheme.

What You'll Learn: Use essential and advanced features of the Java language. Code Java annotations and inner classes. Work with reflection, generics and threads. Take advantage of the garbage collector. Manage streams with the Stream API. Who This Book Is For: Those new to Java programming and continues

the learning Java journey it is recommended that you read an introductory Java programming book first such as Beginning Java Fundamentals from Apress
