## **Clerical Error A True Story Handbooks Of Catholic Theology:**

**Clerical Error** Robert Blair Kaiser,2002-03-11 Bob Kaiser was Time s man at Vatican II and he told the story of that council in his bestseller of the early sixties Pope Council and World It was a work as well informed as Xavier Rynne s Letters from Vatican City and probably more influential No reporter knew more about the council said Michael Novak In the English speaking world at least perhaps no source was to have quite the catalytic effect on opinion outside the council and even to an extent within it This is a different story It is the tale of an intrepid reporter who is so intent on covering the Vatican beat better than anyone else that he doesn t notice that one of his best informants is playing around with his wife When Kaiser blows the whistle on the man a charming Irish Jesuit named Malachy Martin Martin persuades Kaiser s clerical friends including Archbishop T D Roberts and John Courtney Murray to send him to a psychiatric clinic The story is at once hilarious Martin was one of the great clerical con men of all time and sobering The clerical error the refusal to see what Martin was up to was as much Kaiser s as that of his clerical friends who defended their fellow priest simply because he was a member of the club Their naivete and blindness simply mirror the church s inability to update the ancient institution called priesthood or to deal realistically with any issue touched by sex birth control remarriage after divorce priestly celibacy clerical child abuse or the ordination of women Inside the Jesuits Robert Blair Kaiser,2014-05-23 Pope Francis the first Jesuit pope has

captured our attention by stepping away from the papal throne unafraid to give impromptu interviews decentralize church governance or explore new horizons for the greater good of the people of God His actions and words suggest that he is here not to dominate but to serve less inclined to preach than to listen and to bring us back to Jesus that we may have life and have it more abundantly Award winning journalist Robert Blair Kaiser argues that the pope s Jesuit DNA is central to understanding how Pope Francis is shaping the church and the world Inside the Jesuits takes readers inside the Jesuits head and heart take on faith The author tells the story of his own Jesuit training before leaving to become a journalist and highlights how the key elements of the Jesuit formation have made Pope Francis the pope he is like Jesus in his simplicity launching bold administrative moves to update the Church and daring to say and do things no other pope has said or done He washes the feet of those in prison including a Muslim woman He says of homosexuals Who am I to judge To further illustrate the Jesuit DNA in action Kaiser produces some fascinating profiles of other Jesuits and former Jesuits working the Jesuit motto for the greater glory of God which Kaiser gives a more worldly spin for the greater good of the people of God Inside the Jesuits is a powerful exploration of how the Jesuit training to be more like Jesus has shaped Pope Francis a self confessed sinner who encourages us to love our supposedly less worthy selves and help make a better world Forthcoming Books

Kemp,2025 The history of the Catholic Church's response to evolutionary biology has often been badly misrepresented as antagonistic. In fact its response is better characterized as a long process of accommodation. This work is a comprehensive introduction to the work of the Catholic scientists and theologians who worked out the details of that accommodation. Few Catholics found the evolutionary origin of plant and animal species theologically objectionable. None thought that evolutionary processes provided a sufficient account of the origin of the first human beings. Catholics differed over whether those processes played a role in the origin of the first human body. Catholic evolutionism began with the work of four nineteenth century scientists who might be called the pioneers of Catholic evolutionism: Belgian geologist Jean Baptiste d Omalius d Halloy, English anatomist George Mivart, Italian anatomist Filippo De Filippi and French paleontologist Albert Gaudry. The next generations of Catholic evolutionists writing in the period from about 1890-1940 included scientists, Jesuit entomologists Erich Wasmann and Felix R. Schkamp, as well as priests who focused more exclusively on the question of compatibility. Dalmace Leroy, John Zahm, Henry de Drolodot and Ernest Messenger. Among the scientists might also be included French paleontologist Pierre Teilhard de Chardin who made some contributions to the general idea of the compatibility of evolutionary biology and Catholic theology but who eventually veered off in the direction of a comprehensive evolutionary theology of nature the details of which are beyond the scope of this book. Catholic anti evolutionists made efforts to have the Church prohibit works of Catholic evolutionism that in their judgment gave evolutionary processes too great a role in the formation of the human body or that relied on problematic principles of hermeneutics. Efforts on the former front were eventually blocked by Pope Pius XI. The first magisterial statement on the question came however only in 1950 with Pope Pius XII's encyclical *Humani generis* which provisionally declared the orthodoxy of evolutionary accounts of the origin of the human body. In addition to providing details about Catholic evolutionists and the magisterium the book also reviews the treatment of the new ideas in Catholic encyclopedias, periodicals and textbooks. Although written in the first instance as a work of scholarship the book was also written with attention to the needs of scientists, priests and members of the general public who are interested in the question.

**A Quest for the Historical Christ** Anthony Giambrone,2022-02-18 A Quest for the Historical Christ brings together a collection of interrelated essays on the historical Jesus and primitive Christology. Sensitive to the diverse but traditionally Protestant assumptions and perspectives of the Quest as well as to the widely lamented disconnect between New Testament exegesis and classical dogmatic theology, an alternative approach is proposed in these pages. Ecumenical and conciliar reference points along with non-confessional historical methods, e.g. archeology, shape the basic project which nevertheless assumes some distinctive and important Catholic contours. The book is divided into three sections: Historical Foundations, Theological Perspectives and Jesus and the Scriptures. While the individual chapters represent independent probes, the cumulative

argument and arc of the study drives in clear and concerted directions After a first approach to the Gospel data attentive at once to historiographical and historical questions a series of interventions reorienting the present scholarly discussion are suggested These various foundational essays lead finally to a sustained meditation on the mind of Christ considered as a unique reader of the Scriptures a meditation having its proper reflex and reflection in the way Christians themselves as readers of the Gospels participate in the Lord s own encounter with the living Word     *First Things* ,2006
