to Computer Science G. Michael Schneider,Judith L. Gersting,2006 This new edition of Invitation to Computer Science follows the breadth first guidelines recommended by CC2001 to teach computer science topics from the ground up The authors begin by showing that computer science is the study of algorithms the central theme of the book then move up the next five levels of the hierarchy hardware virtual machine software applications and ethics Utilizing rich pedagogy and a consistently engaging writing style Schneider and Gersting provide students with a solid grounding in theoretical concepts as well as important applications of computing and information technology A laboratory manual and accompanying software is available as an optional bundle with this text Concepts of Programming Languages Robert W. Sebesta,2012-02-28 This is the eBook of the printed book and may not include any media website access codes or print supplements that may come packaged with the bound book For undergraduate students in Computer Science and Computer Programming courses Now in its Tenth Edition Concepts of Programming Languages introduces students to the main constructs of contemporary

programming languages and provides the tools needed to critically evaluate existing and future programming languages. Readers gain a solid foundation for understanding the fundamental concepts of programming languages through the author's presentation of design issues for various language constructs, the examination of the design choices for these constructs in some of the most common languages, and critical comparison of the design alternatives. In addition, Sebasta strives to prepare the reader for the study of compiler design by providing an in-depth discussion of programming language structures, presenting a formal method of describing syntax, and introducing approaches to lexical and syntactic analysis.

Declarative Agent Languages and Technologies X Matteo Baldoni, Louise Dennis, Viviana Mascardi, Wamberto Vasconcelos, 2013-04-15. This book constitutes the thoroughly refereed post-proceedings of the 10th International Workshop on Declarative Agent Languages and Technologies DALT 2012 held in conjunction with the 11th International Joint Conference on Autonomous Agents and Multiagent Systems AAMAS 2012 at Valencia, Spain, in June 2012.
