Game Preview Nicolae Sfetcu, 2014-05-04 A guide for game preview and rules history definitions classification theory video game consoles cheating links etc While many different subdivisions have been proposed anthropologists classify games under three major headings and have drawn some conclusions as to the social bases that each sort of game requires They divide games broadly into games of pure skill such as hopscotch and target shooting games of pure strategy such as checkers go or tic tac toe and games of chance such as craps and snakes and ladders A guide for game preview and rules history definitions classification theory video game consoles cheating links etc

Health Information on the Internet Rowena Cullen, 2005-11-30 The accessibility of health information on the Internet has revolutionized access to clinical information for health practitioners and patients This access to information has the potential to make a major contribution to health care However the effective use of this accessibility depends on an understanding of all the issues involved from the underlying technologies and economic pressures to questions of how best to manage quality and privacy how people seek and use information and what the barriers to its use are Cullen s book also examines the extent of health information on the Internet the providers of websites and their content and outlines the nature of the paradigm shift affecting knowledge in the health sector

Watching the Internet José M. Alvarez-Monzoncillo, 2022-03-03 This book deals with the Internet s influence on television The traditional value chain has been transformed giving rise to new forms of television that foster user generated content We no longer dream about interactivity but participation Accordingly the digital natives like to tag programs and films in the cyberspace each conveniently tagged so that other users can find it Although many questions have yet to be answered this decade s motto may be the tag is the medium However on demand television is unlikely to replace mass TV The Web 2 0 has brought an end to the my TV concept of the dotcom age and may put our TV in its place These changes pose serious problems The industry is facing the real threat of revenue cannibalization because current online business models are not financially rewarding The Internet is not yet a profitable market for programs that require additional revenues to advertising To date the box office video and premium television have been the main sources of revenue of the audiovisual industry This book explores the factors at play in this shift
