De Wereld Van Klm In 1992:

From De Halve Maen to KLM Margriet Bruijn Lacy, 2008 *The Low Countries*, 1996 **Holding Patterns: Air Transport and Foreign Policy in the Netherlands** Marc Dierikx, Jean Guillaume Petit, 2024-11-11 Read the interviews with Marc Dierikx [here](#) and [here](#) Although air transport is indispensable to modern society we know little about the diplomatic efforts that establish airline services Nonetheless aviation features prominently in the spectrum of international relations in conflicts between states for example the suspension of landing rights is one of the first acts to symbolize serious discord In tracing the unique cooperation between government and industry this historical study underscores aviation as a prominent but understudied topic in Dutch foreign relations **Four Centuries of Dutch-American Relations** Hans Krabbendam, Cornelis A. van Minnen, Giles Scott-Smith, 2009-09-09 Since Henry Hudson landed on Manhattan in 1609 the peoples of the Netherlands and North America have been inextricably linked Four Centuries of Dutch American Relations written by a team of nearly one hundred Dutch and American scholars is the first book to offer a comprehensive history of this bilateral relationship This volume covers the main paths of contacts conflicts and common plans from the first exploratory contacts in the early seventeenth century to the intense and multifaceted exchanges in the early twenty first Based on the most up to date research Four Centuries of Dutch American Relations will be for years to come a valuable and much used reference work for anyone interested in the history and culture of the United States and the Netherlands and the larger transatlantic interdependent framework in which they are embedded **The Power of Nuclear** Marco Visscher, 2024-11-07 From the pilot's seat in the B 29 that dropped the atomic bomb on Hiroshima to Chernobyl's exclusion zone and to the site in Finland where highly radioactive waste will be buried this is the incredible story of nuclear power Providing a vivid account of the characters and events that have shaped the world's most controversial energy source and our thinking around it The Power of Nuclear weaves politics culture and technology to explore nuclear power's past and future In his quest to disentangle myth from facts Marco Visscher asks How dangerous is radiation What should you do after a nuclear accident Have nuclear weapons really made the world less safe And why do some still reject the evidence showing the atom can provide unlimited clean energy free countries of their dependence on fossil fuels and combat climate change This is an informed look at what we might do with nuclear power and what nuclear power is doing to us [Flying the Flag](#) H. Dienel, P. Lyth, 1999-01-12 Since the end of World War II European airlines have revealed their own operational style By analyzing seven European flag carriers Dienel and Lyth provide a comparative study of the airline business covering government policy aircraft procurement network growth commercial performance and collaboration with other airlines and transport modes This study also seeks to explain why national flag carriers have survived in an age of globalization and strategic alliances A concluding chapter views the contrasting American air transport industry **Europe after Empire** Elizabeth Buettner, 2016-03-24 Europe after Empire is a pioneering comparative history of European decolonization from the

formal ending of empires to the postcolonial European present Elizabeth Buettner charts the long term development of post war decolonization processes as well as the histories of inward and return migration from former empires which followed She shows that not only were former colonies remade as a result of the path to decolonization so too was Western Europe with imperial traces scattered throughout popular and elite cultures consumer goods religious life political formations and ideological terrains People were also inwardly mobile including not simply Europeans returning home but Asians Africans West Indians and others who made their way to Europe to forge new lives The result is a Europe fundamentally transformed by multicultural diversity and cultural hybridity and by the destabilization of assumptions about race culture and the meanings of place and where imperial legacies and memories live on **De dynamiek van een emigratiecultuur** Enne Koops,2010 **Monographic Series** Library of Congress, Economic titles/abstracts ,1990
